

Art 274: Paper Works

Found Object / Repurposed / Recycled

For this project you will create a book entirely from used materials...found objects, repurposed, recycled, up-cycled, etc. You may use anything as long as it has no original connection to a book.

Parameters:

-For found objects, you must include:

- something old
- something new
- something industrial or something of nature
- something found on the street
- book must have a minimum of 6 pages

-Book must have an alternative form of binding. Stitching is allowed if alternative cannot be sourced.

-No conceptual content is needed unless you want to add something.

+ Because this book requires no formal content, you can really let the materials guide the project!

+ Push the boundaries on what a book is/can be!

Due: Tue 3.1.18
